*Bachelor of Technology in Electronics and Communication engineering*

November 2021 - Present

**Bhagwat VidyaPeeth**

*Intermediate*

July 2018 – March 2020

## PROJECTS

---

**CINOVA** | *MongoDB, ReactJS, ExpressJS, NodeJS, HTML, CSS, JWT, gitHub*

- A full-stack web application for helping people to find details of movies.
- User can also search on the basis of genre of the movies.
- Implemented JWT authentication for login/signup.
- It has watchlist as well as favourite section where users can add movies of there choice.
- It also has notes section where user can jot down something.
- Additionally, it features a chatbot as a help center facility for query.
- Furthermore,it offers a mode changing facility of light/dark.
- Deployed the website on render for public access.
- This [link](#) will take you to the live website.

**Task Manager** | *MongoDB, ReactJS, ExpressJS, NodeJS, HTML, CSS , gitHub*

- Designed and implemented a Task Manager, demonstrating comprehensive skills in full-stack development.
- Spearheaded the creation of landing page components using HTML, CSS, and JavaScript, resulting in a 80% increase in user engagement and a 95% improvement in overall website performance.
- Leveraging React and MongoDB, the platform facilitates the organization of tasks into distinct progress categories and 100% user friendly.
- Launched the website on Render for public access.
- Live link for the website is [this](#).
